

# NEOPRO

## NEOPRENE RUNNER CHEMIN DE PLANCHER EN NÉOPRÈNE

**Our non-adhesive re-usable runner is specifically designed to protect difficult-to-protect surfaces such as stairs and counter tops.**

### Temporary Surface Protection

Stairs, stairwells and counter tops are expensive to build and require careful planning to protect correctly and in a way that is both effective and safe. NeoPro will help you achieve this goal.

### Protects All Types of Surfaces

NeoPro can be used on hardwood, laminate, linoleum, carpet, vinyl, ceramic and just about any other surface that requires temporary surface protection.

### Easy to Install (Installation Instructions)

Because NeoPro is a non-adhesive product, you must ensure it is secured in place.

- i) First measure and cut for length.
- ii) Loose lay, avoiding tension.
- iii) Secure using low tack tape on each side of the runner.
- iv) Inspect the installation daily to ensure it is secure.

### Cleans Well & is Re-usable

When you are finished using your NeoPro Runner, simply clean it off, roll it up dry and store for your next job.

<b>Length</b>	<b>12 feet</b>
<b>Width</b>	<b>27 inches</b>
<b>Thickness</b>	<b>1.6 mm</b>
<b>Square Feet</b>	<b>27 sq.ft</b>
